	Problem Description						
	Following the switch from Janz as our supplier, we have now run out of impellers in production. As expected, the first attempt with Nimoulda to produce impellers using the cold-water mold GWF-2361 (12.080289) did not work, since the mold was designed for PP. In the second attempt using injection mold 4525, we were able to produce impellers that are sufficient for initial hydraulic testing. However, these exhibit significant dimensional deviations from the current drawing for part 12.110008. For example, the impeller diameter is approximately 0.9 mm larger, which results in a 6% increase in impeller rotation at the same adjustment. During the first hydraulic tests in the 220-mm body, however, the counters could be adjusted to fit just barely. Furthermore, Nimoulda is unable to perform the ultrasonic welding process previously used to secure the bearing sleeve. The dark color of the Ryton parts also suggests suboptimal injection molding parameters, which in turn could lead to the breakage of vanes in the area of the gate points.						
	Attached Pictures:						
	  						
	Root Cause						
3	Hydraulic tests showed that the parts with the reworked diameter (Ø40) function properly.						

4	Disposition (parts)						
	☐ Scrap ☐ Sorting (under Concession) ☒ Rework ☒ Use as is ☒ Risk assessment (mandatory) ☐ Other supporting documents SO00087546 – 8 Stk (LT 15.09.2026) SO00088760 – 1 Stk (LT 16.09.2026) SO00089061 – 1 Stk (LT 18.09.2026) See also document (260817_Impeller Replacement 12.110008).						
5	Disposition (process)						
	☐ Stop until fixed ☒ Continue with Concession ☐ Risk assessment (mandatory) ☐ Other supporting documents If concession: <table> <tr> <td>Until (date)</td><td>Quantity (number)</td></tr> <tr> <td></td><td>10 pcs</td></tr> </table>			Until (date)	Quantity (number)		10 pcs
Until (date)	Quantity (number)						
	10 pcs						
6	Corrective Actions						
	☐ Tool repair ☐ DFM ☐ FAI ☐ Capability Study (PpK) ☐ all critical dimensions ☐ selected dimensions ☐ Sample submission ☐ other ☐ New PSW						
7	Information to the sales department: ja / yes ☐ nein / no ☒ For information only						
	Information to the customer: ja / yes ☐ nein / no ☒ Sales communicates towards customer
